CAREER OBJECTIVE

Detail-oriented and innovative Full Stack Developer with a passion for designing, developing, and maintaining responsive web applications. Adept at utilizing both front-end and back-end technologies to create dynamic and user-friendly websites. Seeking to contribute my skills in web development, problem-solving, and project management to deliver efficient, scalable, and impactful solutions for businesses.

SUMMARY OF SKILLS

- **Dedicated, competent, and result-oriented Full Stack Developer** with over a year of experience in web development, service management, and project execution. Skilled in analyzing and implementing technical solutions for business growth and operational efficiency.
- **Work Experience** – Hands-on experience in full-stack web development, coding, debugging, API integration, and front-end/back-end frameworks.
- **Technical Skills** – Proficient in HTML, CSS, JavaScript, Python, and other web development tools. Experienced in using databases, Git, and version control. Practical knowledge of web frameworks such as React, Node.js, and Django.
- **Ability to handle projects** efficiently under pressure while consistently meeting tight deadlines and producing quality outcomes.
- **Competencies** – Quick learner with the ability to adapt to changes in development environments. Effective in working with diverse teams, committed to excellence, and bringing a positive, problem-solving attitude to every project.
- **Leadership and Collaboration Skills** – Experienced in leading projects, problem-solving, and making informed, logical decisions. Strong communication skills, including the ability to present technical solutions clearly. Capable of taking initiative and responding flexibly to changing situations, while accepting responsibility for project outcomes.

PROFESSIONAL EXPERIENCE

Employer Name	Position	Department	Duration
The Expert Management Solutions	Head of Technology	IT	Jan 2023 to Present

WORKING EXPERIENCE

The Expert Management Solutions Pvt Ltd (New Baneshwor Kathmandu)

- ➢ **Provide a seamless user experience** by developing user-friendly, visually appealing, and responsive websites, ensuring clients feel comfortable and engaged with the product.
- ➢ **Understand and prioritize client requirements** to create tailored web solutions that meet their business needs and objectives.
- ➢ **Demonstrate the functionality and benefits** of web applications, highlighting key features, performance, and security aspects to add value.

- ➢ **Collaborate with clients** to offer customized solutions, ensuring they feel confident about the cost-effectiveness and quality of the product.
- ➢ **Build strong client relationships** by delivering high-quality projects on time, fostering trust and reliability for future collaborations.
- ➢ **Maintain long-term partnerships** by providing ongoing support, updates, and improvements, ensuring a high level of client satisfaction and engagement.

Acharya D. & Associates (New Baneshwor, Kathmandu)

- ➢ **Engaged with clients** by presenting digital solutions such as accounting software integrations, financial management tools, and automation of tax processes to streamline business operations.
- ➢ **Built strong client relationships** by understanding their accounting and financial requirements, providing customized web-based solutions for bookkeeping, payroll, and tax compliance.
- ➢ **Demonstrated software functionalities**, including financial dashboards and data visualization tools, and explained how these tools could enhance financial reporting and auditing processes.
- ➢ **Proposed and implemented digital solutions** for accounting systems, financial tracking, and reporting tools, while offering favorable terms for long-term maintenance and support services.
- ➢ **Promoted the adoption of accounting technologies**, encouraging clients to utilize web-based tools that simplify compliance, improve financial accuracy, and optimize operational efficiency.
- ➢ **Maintained the firm's reputation** by delivering professional, high-quality digital solutions and ensuring client satisfaction through effective technical support and project management.

Learning Management System (LMS)

- ➢ **Collaborated with the Student Services Manager** to provide technical support for student counseling platforms, ensuring a seamless user experience for students seeking guidance.
- ➢ **Assisted in managing communication and community services** through the LMS, offering students timely access to resources, academic advice, and support services.
- ➢ **Facilitated student onboarding** by creating digital tools to help students transition into university life, including features for stress management resources and academic assistance.
- ➢ **Developed and maintained event management features**, ensuring students stayed updated on the latest college events, workshops, and opportunities through the LMS.
- ➢ **Enhanced user experience** by improving the platform's usability and accessibility, allowing students to easily access academic resources and support services.
